-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 7,9-15,17-20 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims not been further treated on the merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,3,5/(3,1) are rejected under 35 U.S.C. 102(b) as being anticipated by the admitted prior art (APA). Page 3, lines 1-3 of applicant's specification disclose the subject matter of these claims.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4,5/4,6/5,8/6 are rejected under 35 U.S.C. 103(a) as being unpatentable over APA. The limitations of these claims would have been obvious design choices

only once the basic apparatus was known. For example, the use of flanges is well known in the mechanical arts and of no patentable merit.

Claims 2,5/(3,1),6/5,8/6,16 are rejected under 35 U.S.C. 103(a) as being unpatentable over APA as applied to claim 1 above, and further in view of Reed et al. APA does not use Teflon as a coating material. Reed et al shows similar apparatus in which it is disclosed that the mixer can be formed of steel or steel with a Teflon coating. In order to provide for the inherent advantages of using Teflon as a coating material, it would have been obvious for one of ordinary skill in the art to modify APA by using Teflon as the coating material, taught to be desirable by Reed et al. The exact location of the mixing elements would have been a design choice only based on several factors such as material being treated and desired mixing results.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Rosenbaum whose telephone number is 571-272-4523. The examiner can normally be reached on Monday-Friday.
